Bill,

We think it would be useful to have everyone on the call even though it will be a technical discussion. Our thought is that this will help to keep everyone on the same page as we move forward. If you need additional dates to schedule let me know.

Matt,

I just wanted to let you know that Beth Kudarauskas is out of the office until next week, and I will need to touch base with her on her availability before I can get back to you on your proposed dates for the call.

In the meantime, would Global be open to having just our respective technical staffs participate in the conference call? It is EPA's opinion that the interim status call should only involve technical topics and that a technical staff only discussion would be sufficient. Limiting participation in the call may also help to expedite the scheduling for the call.

If this is acceptable to Global, please have Global's technical staff contact Beth Kudarauskas (617-918-1564) or Christine Sansevero (617-918-1699) to set up the call.

Thanks,
Bill

Bill,
In response to your email below and request for a telephone conference, we are available for a call to discuss the status of Global's October 1 submittal on August 31 at 10 am or on September 1 at 10 am or 2 pm. If you could let us know if one of those times works on your end, I can send out a call in number.

Thanks.
Matt

PRIVILEGED - FOIA EXEMPT

Michael,

Attached is EPA's response to your letter from July 9th regarding Global's proposed schedule. A hard copy of EPA's response will follow.

Please contact me if you have any questions on our letter.

Regards,
Bill

Bill,

As we discussed at our recent July 2 meeting with Agency representatives, I am providing a letter with our proposed schedule for preparing our PTE analysis, and technical and operational controls review in connection with the South Portland terminal. I would appreciate your circulating the letter to the rest of the team in attendance at the meeting.

Please give me a call if you have any questions about our proposal.

Michael
